	Mutual Funds dated June 27, 2024		
	Pending deployment of funds as per the investment objective of the Scheme, the funds of the Scheme may be invested in money market/liquid instruments or both. Change in Asset Allocation: Rebalancing due to Short Term Defensive Consideration Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term and defensive considerations as per SEBI Circular no. SEBI/HO/IMD/DF2/CIR/P/2021/024 dated March 4, 2021, and the fund manager will rebalance the portfolio within 30 calendar days from the date of deviation. Rebalancing due to Passive Breaches Further, as per Paragraph 2.9 of SEBI Master circular on Mutual Funds dated June 27, 2024, as may be amended from time to time, in the event of deviation from mandated asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the fund manager shall rebalance the portfolio of the Scheme within 30 Business Days. In case the portfolio of the Scheme is not rebalanced within the period of 30 Business Days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee of the AMC. The Investment Committee, if it so desires, can extend the timeline for rebalancing up to sixty (60) Business Days from the date of completion of mandated rebalancing period. Further, in case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in Paragraph 2.9 of SEBI Master circular on Mutual Funds dated June 27, 2024. Provided further and subject to the above, any change in the asset allocation affecting the investment profile of the Scheme shall be effected only in accordance with the provisions of sub regulation (15A) of Regulation 18 of the SEBI (MF) Regulations. Rebalancing in case of involuntary corporate action. In the event of involuntary corporate action the scheme shall dispose the security not forming part of the underlying index within a day from the date of allotment of Listing.		

	In case of any breaches in asset allocation, the norms as specified in para 2.9 and 3.5.3.11 of SEBI Master circular on Mutual Funds dated June 27, 2024 shall be applicable.
Investment Strategy	The Scheme will adopt a passive investment strategy. The scheme will invest in stocks comprising the Nifty 50 Index in the same proportion as in the Index with the objective of achieving returns equivalent to the Total Returns Index of Nifty 50 Index by minimizing the performance difference between the benchmark index and the scheme. The Total Returns Index is an index that reflects the returns on the index from index gain/ loss plus dividend payments by the constituent stocks. The Scheme will invest in the securities constituting the Underlying Index. However, due to changes in Underlying Index the scheme may temporarily hold securities which are not part of the index. For instance, the portfolio may hold securities not included in the Underlying Index as result of certain changes in the Underlying Index such as reconstitution, addition, deletion etc. The fund manager's endeavour would be to rebalance the portfolio in order to replicate the Index; however, there may be a short period where the constituents of the portfolio may differ from that of the Underlying Index. Rebalancing due to Short Term Defensive Consideration: Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term and defensive considerations, and the fund manager will rebalance the portfolio within 30 calendar days from the date of deviation. Rebalancing due to Passive Breaches Further, as per Paragraph 2.9 of SEBI Master circular on Mutual Funds dated June 27, 2024 as may be amended from time to time, in the event of deviation from mandated asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the fund manager shall rebalance the portfolio of the Scheme within 30 Business Days. In case the portfolio of the Scheme is not rebalanced within the period of 30 Business Days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee of the AMC. The Investment Committee, if it so desires, can extend the timeline for rebalancing up to sixty (60) Business Days from the date of completion of mandated rebalancing period. Further, in case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in Paragraph 2.9 of SEBI Master circular on Mutual Funds dated June 27, 2024.

	Securities Lending by the Fund The scheme shall engage in securities lending for equity investments, in line with the SEBI (Mutual Funds) Regulations, 1996, Securities Lending Scheme, 1997, and Paragraph 12.11, 12.11.2.1.b of SEBI Master circular on Mutual Funds dated June 27, 2024 notifying framework for lending of securities and such other applicable guidelines as may be amended from time to time in accordance with the Regulations and applicable guidelines, the Fund may engage in stock lending activities. The Securities will be lent by the Approved Intermediary against collateral received from borrower, for a fixed period of time, on expiry of which the securities lent will be returned by the borrower. It may be noted that this activity would have the inherent probability of collateral value drastically falling in times of strong downward market trends, resulting in inadequate value of collateral until such time as that diminution in value is replenished by additional security. It is also possible that the borrowing party and /or the approved intermediary may suddenly suffer severe business setback and become unable to honour its commitments. This along with a simultaneous fall in value of collateral would render potential loss to the Scheme. Besides, there can also be temporary illiquidity of the securities that are lent out and the scheme may not be able to sell such lent out securities.
Risk Profile of the Scheme	Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below: Tracking Error Risk: The Fund Manager would not be able to invest the entire corpus exactly in the same proportion as in the underlying index due to certain factors such as the fees and expenses of the Scheme, corporate actions, cash balance and changes to the underlying index and regulatory restrictions, lack of liquidity which may result in Tracking Error. Hence it may affect AMC's ability to achieve close correlation with the underlying index of the Scheme. The Scheme's returns may therefore deviate from its underlying index. "Tracking Error" is defined as the standard deviation of the difference between daily returns of the underlying index and the NAV of the Scheme. The Fund Manager would monitor the Tracking Error of the Scheme on an ongoing basis and would seek to minimize the Tracking Error to the maximum extent possible. Tracking errors are inherent in any index fund and such errors may cause the scheme to generate returns which are not in line with the performance of the Nifty 50 Index or one or more securities covered by / included in the Nifty 50 and may arise from a variety of factors including but not limited to: 1.Any delay in the purchase or sale of securities due to illiquidity in the market, settlement and realisation of sales proceeds, delay in credit of securities or in receipt and consequent reinvestment of dividend, etc.

	2.The index reflects the prices of securities at a point in time, which is the price at close of business day on the stock exchange. The scheme, however, may trade the securities at different points in time during the trading session and therefore the prices at which the scheme trades may not be 10 identical to the closing price of each scrip on that day on the respective stock exchange. In addition, the scheme may opt to trade the same securities on different exchanges due to price or liquidity factors, which may also result in traded prices being at variance from the closing price considered in the Index. 3.The potential of trades to fail may result in the scheme not having acquired the security at the price necessary to mirror the index. 4.Transaction and other expenses, such as but not limited to brokerage, custody, trustee and investment management fees. 5. Being an open ended passive scheme, the scheme may hold appropriate levels of cash or cash equivalents to meet on going redemptions. 6.The scheme may not be able to acquire or sell the desired number of securities due to conditions prevailing in the securities market, such as, but not restricted to circuit filters in the securities, liquidity and volatility in security prices. The tracking error of the scheme based on past one year rolling data shall not exceed 2%. In case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMCs, the tracking error may exceed 2% and the same shall be brought to the notice of Trustees with corrective actions taken by the AMC, if any. The Scheme will disclose the tracking error based on past one year rolling data, on a daily basis, on the website of AMC and AMFI. In case the Scheme has been in existence for a period of less than one year, the annualized standard deviation shall be calculated based on available data. Investments in underlying schemes will have all the risks associated with such schemes including performance of underlying stocks, off shore investments, stock lending, changes in credit rating, trading volumes, settlement periods, price/interest rate risk, volatility & liquidity in money markets, basis risk, spread risk, re-investment risk, etc. Tracking Difference: The tracking difference i.e. the annualized difference of daily returns between the index and the NAV of the Scheme will be disclosed on the website of the AMC and AMFI, on a monthly basis, for tenures 1 year, 3 year, 5 year, 10 year and since the date of allotment of units. For details on risk factors and risk mitigation measures, please refer SID.
